**CS for CS for SB 444**—A bill to be entitled An act relating to the development of water supplies; amending s. 201.15, F.S.; providing for the distribution of certain excise taxes on documents to the Water Protection and Sustainability Program Trust Fund of the Department of Environmental Protection, the Invasive Plant Control Trust Fund of the Department of Environmental Protection, and the General Inspection Trust Fund of the Department of Agriculture and Consumer Services; creating s. 215.6197, F.S.; establishing the Water Protection and Sustainability Program; authorizing the issuance of bonds; establishing criteria for distribution of bonds for a specified period; prohibiting the sale of bonds under certain conditions; authorizing the issuance of the water protection and sustainability bonds in the best interest of the state; amending s. 373.019, F.S.; defining the terms “alternative water supply,” “capital costs,” and “multijurisdictional water supply entities”; amending s. 373.196, F.S.; encouraging cooperation in the development of water supplies; providing for alternative water supply development; encouraging municipalities, counties, and special districts to create regional water supply authorities; establishing the primary roles of the

water management district in alternative water supply development; establishing the primary roles of local governments, regional water supply authorities, special districts, and publicly owned and privately owned water utilities in alternative water supply development; requiring the water management districts to detail the specific allocations to be used for alternative water supply development in their annual budget submission; amending s. 373.1961, F.S.; providing general powers and duties of the water management districts in water production; requiring that the water management districts include the amount needed to implement the water supply development projects in each annual budget; establishing general funding criteria for funding assistance to the state or water management districts; establishing economic incentives for alternative water supply development; creating a funding formula for the distribution of state funds to the water management districts for alternative water supply development; requiring that funding assistance for alternative water supply development be limited to a percentage of the local capital costs of an approved project; requiring that the governing board or alternative water supplies advisory committee recommend alternative water supply projects for funding; establishing criteria; providing for cost recovery from the Public Service Commission; establishing criteria for funding assistance for water reuse systems; amending s. 373.1962, F.S.; clarifying that counties, municipalities, and special districts may execute interlocal agreements to create regional water supply authorities; amending s. 373.223, F.S.; establishing criteria for certain water supply entities to be presumed to have a use consistent with the public interest for requirements for consumptive use permitting; amending s. 373.236, F.S.; providing permits of at least 20 years for development of alternative water supplies under certain conditions; amending s. 373.459, F.S.; requiring that entities receiving state funding for implementation of surface water improvement and management projects provide a 50-percent match of cash or in-kind services; amending s. 373.0361, F.S.; providing for the development of regional water supply plans; providing requirements for the content of each plan; providing for an approval process for the plans; providing for annual updates; providing for local government use of the plans; providing notification requirements for water management districts concerning findings within the plan; changing the deadline for certain plan updates; amending s. 163.3177, F.S.; requiring a local government to incorporate alternative water supply projects into the comprehensive plan; requiring local governments to identify specific projects needed; providing for cooperative planning; amending s. 163.3180, F.S.; requiring adequate water supplies to serve new development; amending s. 163.3191, F.S.; requiring the evaluation and appraisal report to evaluate water supply sources; amending s. 403.067, F.S.; providing that initial allocation of allowable pollutant loads between point and nonpoint sources may be developed as part of a total maximum daily load; establishing criteria for establishing initial and detailed allocations to attain pollutant reductions; authorizing the Department of Environmental Protection to adopt phased total maximum daily loads that establish incremental total maximum daily loads under certain conditions; requiring the development of basin management action plans; requiring that basin management action plans integrate the appropriate management strategies to achieve the total maximum daily loads; requiring that the plans establish a schedule for implementing management strategies; requiring that a basin management action plan equitably allocate pollutant reductions to individual basins; authorizing that plans may provide pollutant load reduction credits to dischargers that have implemented strategies to reduce pollutant loads prior to the development of the basin management action plan; requiring that the plan identify mechanisms by which potential future sources of pollution will be addressed; requiring that the department assure key stakeholder participation in the basin management action planning process; requiring that the department hold at least one public meeting to discuss and receive comments during the planning process; providing notice requirements; requiring that the department adopt all or part of a basin management action plan by secretarial order pursuant to ch. 120, F.S.; requiring that basin management action plans that alter that calculation or initial allocation of a total maximum daily load, the revised calculation, or initial allocation must be adopted by rule; requiring periodic evaluation of basin management action plans; requiring that revisions to plans be made by the department in cooperation with stakeholders; providing for basin plan revisions regarding nonpoint pollutant sources; requiring that adopted basin management action plans be included in subsequent NPDES permits or permit modifications; providing that implementation of a total maximum daily load or basin management action plan for holders of an NPDES municipal separate stormwater sewer system permit may be achieved through the use of best management practices; providing that basin management action plans do not relieve a discharger from the

requirement to obtain, renew, or modify an NPDES permit or to abide by other requirements of the permit; requiring that plan management strategies be completed pursuant to the schedule set forth in the basin management action plan and providing that the implementation schedule may extend beyond the term of an NPDES permit; providing that management strategies and pollution reduction requirements in a basin management action plan for a specific pollutant of concern are not subject to a challenge under ch. 120, F.S., at the time they are incorporated, in identical form, into a subsequent NPDES permit or permit modification; requiring timely adoption and implementation of pollutant reduction actions for nonagricultural pollutant sources not subject to NPDES permitting but regulated pursuant to other state, regional, or local regulatory programs; requiring timely implementation of best management practices for nonpoint pollutant source dischargers not subject to permitting at the time a basin management action plan is adopted; providing for presumption of compliance under certain circumstances; providing for enforcement action by the department or a water management district; requiring that a landowner, discharger, or other responsible person that is implementing management strategies specified in an adopted basin management action plan will not be required by permit, enforcement action, or otherwise to implement additional management strategies to reduce pollutant loads; providing that the authority of the department to amend a basin management plan is not limited; requiring that the department verify at representative sites the effectiveness of interim measures, best management practices, and other measures adopted by rule; requiring that the department use its best professional judgment in making initial verifications that best management practices are not effective; requiring notice to the appropriate water management district and the Department of Agriculture and Consumer Services under certain conditions; establishing a presumption of compliance for implementation of practices initially verified to be effective or verified to be effective at representative sites; limiting the institution of proceedings by the department against the owner of a source of pollution to recover costs or damages associated with the contamination of surface water or groundwater caused by those pollutants; requiring the Department of Agriculture and Consumer Services to institute a reevaluation of best management practices or other measures where water quality problems are detected or predicted during the development or amendment of a basin management action plan; providing for rule revisions; providing the department with rulemaking authority; requiring that a report be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives containing recommendations on rules for pollutant trading prior to the adoption of those rules; requiring that recommendations be adopted in cooperation with a technical advisory committee containing experts in pollutant trading and representatives of potentially affected parties; deleting a requirement that no pollutant trading program shall become effective prior to review and ratification by the Legislature; amending ss. 373.4595 and 570.085, F.S.; correcting cross-references; amending s. 403.885, F.S.; revising requirements relating to the department's grant program for water quality improvement and water restoration project grants; eliminating grants for water quality improvement, water management, and drinking water projects; authorizing grants for wastewater management; creating additional criteria for funding storm water grants; requiring local matching funds; providing an exception from matching fund requirements for financially disadvantaged small local governments; creating s. 403.890, F.S.; establishing the Water Protection and Sustainability Program; establishing a funding formula for the distribution of revenues generated by the bonding provisions as provided in s. 215.6197, F.S.; establishing funding for alternative water supply development as provided in s. 373.1961, F.S., the development and implementation of total maximum daily load projects as provided in s. 403.067, F.S., surface water improvement and management plans and programs as provided in ss. 373.451 and 373.459, F.S., the Clean Water State Revolving Loan Grants Program as provided in s. 403.1835, F.S., the Drinking Water State Revolving Loan Grant Program as provided in s. 403.8532, F.S., and the Disadvantaged Small Community Wastewater Grant Program as provided in s. 403.1838, F.S.; providing for legislative review; providing an effective date.
